

Esta colección de pavimentos porcelánico esmaltados, fabricados en sistema de impresión digital, imitan o reproducen los clásicos pavimentos de baldosas hidráulicas, en formato de 22.5x22,5 con un espesor de 9 mm, ofrecen una mayor resistencia al paso del tiempo. La variedad en formas, colores y patrones permite infinitas posibilidades creativas, ideales para cualquier tipo de pavimentación y realización de ambientes tanto clásicos como modernos. Serie de estilo envejecido, suministrada generalmente en composición mix de 20 patrones. Algunos de estos diseños pueden ser suministrados en patrón único según la cantidad solicitada. La disposición de las piezas permite realizar diferentes configuraciones cambiando el efecto visual.

This collection of enameled porcelain floorings, manufactured with digital printing system, imitates or reproduces the classic encaustic Cement Tiles, in a 22.5x22.5 format with a thickness of 9 mm. They offer greater resistance to the passage of time. The variety of shapes, colors and patterns allows infinite creative possibilities, ideal for any type of paving and performing both classical and modern environments. Aged style series, generally supplied in a 20-pattern mix composition. Some of these designs can be supplied in a single pattern depending on the quantity requested. The arrangement of the pieces allows different configurations to be made by changing the visual effect.

Cette collection de sols en porcelaine émaillée, fabriqué avec un système d'impression digital, imite ou reproduit les carrelages hydrauliques classiques, dans un format de 22,5x22,5 avec une épaisseur de 9 mm. Ils offrent une plus grande résistance au passage du temps. La variété des formes, des couleurs et des motifs permet des possibilités créatives infinies, idéal pour tout type de pavage et l'achèvement des environnements classiques et modernes. Série de style vieilli, généralement fournie dans une composition de mélange de 20 motifs. Certains de ces modèles peuvent être fournis en un seul modèle en fonction de la quantité demandée. L'agencement des pièces permet de réaliser différentes configurations en modifiant l'effet visuel.
